

CALL FOR CONTRIBUTIONS

41st UKMPG Meeting (Online) Thursday 25th November 2021

It's already that time of year where we are beginning to look towards to our annual meeting. We have unfortunately decided to again run the event in an online format because of continued uncertainty with venues due to the pandemic. Despite this, we are sure that it will follow on from last year and be a great event with plenty of shared learning. We hope you are all well and look forward to getting back to some face-to-face networking as soon as possible!

Contributions are invited from members and non-members on all topical items of interest that relate to the application of physics to mammography. Please pass this notice on to any non-member colleagues who may be interested in attending or speaking at the meeting. A registration form and full details of the event will follow nearer the time of the meeting.

Contributions will generally fall into three categories: **Full scientific papers** (20-30mins), **short scientific presentations**, often of a work-in-progress nature (10-15mins), or **roundtable contributions** which are short and more informal discussion topics. Roundtable items may also be brought to the meeting on the day. Please don't hesitate to get in touch if you have any other kind of contribution you may wish to make.

If you would like to offer a contribution or have an idea of what you might like to present, or wish to discuss which category your proposed presentation falls into, please email myself at ashley.smith@rmh.nhs.uk, in addition to our general email at ukmpg@ukmpg.org.uk.

Please include:

Title or brief description of your presentation:

Approximate length (time) of presentation:

If you are not a member of UKMPG please also include your contact details and department / hospital you work for.
